### WAXING

Beauty on Macquarie specialises in female Brazilian waxing and eyebrow shaping. We use hot but gentle strip wax to ensure you get the best results with minimal discomfort. A tea-tree oil skin sanitizer is applied first, with a smoothing anti-bacterial lotion to finish. Your skin will look and feel silky smooth for weeks at a time.

## **LASER HAIR REMOVAL**

Elos laser technology permanently reduces unwanted body hair of all colours – including white, grey, red and blonde hair. The Elos machine is more comfortable and effective than any other intense pulsed light or laser technology available.

Your laser operator should be highly trained, with a good track record and a great reputation. Jamie is an experienced Elos operator with three year's training and an exceptional reputation – most of her clients report they "can't even feel" their Elos treatments.

A course of between 6 to 12 treatments is usually required, depending on hair and skin colour. Jamie will be able to give you a more accurate estimate of the number of treatments you will need at your first consultation. Results are visible after one treatment.
